- ◆ Traditional Open Magnet
- ◆ Great for claustrophobic and larger patients
- ◆ Weight limit up to 500 lbs.
- ◆ Great selection for MRI brains, shoulders, cervical thoracic/ lumbar spines, pelvis, knees and ankles.

Personal experience from some of our patients....

...this was the best experience I have had from all of the previous MRI's I have had.

...for my first MRI the tech made me very comfortable with what to expect.

...your staff just put a smile on my face and made this so easy.
